TENIOLA O. ORALUSI

too364@my.utexas.edu | LinkedIn | ORCID | Austin, Texas

RESEARCH INTERESTS

Organizational Communication | Artificial Intelligence & Robotics | | Future of Work |Disaster, Risk, and Crisis Communication

EDUCATION

Aug 2025 – Present

Ph.D., Organizational Communication Technology | GPA: 4.00
The University of Texas at Austin
Advisor: Dr. Keri Stephens, Ph.D.
Selected Coursework: Grant Writing, Survey of Organizational Communication, Social Network Analysis, Human – Computer Interaction

Aug 2026 – Present

M.Ed., Quantitative Methods | Statistics Sequence | GPA: 4.00
The University of Texas at Austin | En-Route Master's in Quantitative Methods
Advisor: Dr. Stephanie Cawthon, Ph.D.
Selected Coursework: Fundamental Statistics, Statistical Analysis with Experimental Data, Computational Methods (Python), Structural Equation Modeling

Aug 2023 – May 2025

M.A., Organizational Communication | GPA: 4.00
Baylor University
Thesis: Continuous Monitoring, Continuous Communication: How Diabetic Patients Perceive AI-Powered Health Communication Technologies in their Care Journey
Advisor(s): Dr. Ashley Barrett, Ph.D., and Dr. Kayla Rhidenour, Ph.D.
Selected Coursework: Quantitative Research Methods, Small Group Communication, Interpersonal Communication

Sept 2017 – Jan 2021

B.Sc., Mass Communication
University of Lagos
Thesis: Audience Perception of the Symbolic over sexualization of Women in Nigerian Music Videos
Advisor: Dr. Ifeoma Amobi, Ph.D.
Selected Coursework: International Communication, Introduction to Statistics for Social Sciences 1 & 2, Data Analysis in Communication Research

TECHNICAL SKILLS & SOFTWARE

- **Programming**: Python (pandas, NumPy), R, SPSS, Microsoft Excel
- **Statistical Analysis:** Linear Regression, Logistic Regression, ANOVA, MANOVA, Experimental Design, Survey Analysis
- **Computational Methods:** Text Mining, Computational Content Analysis, Sentiment Analysis (VADER), Social Network Analysis
- **Research Infrastructure:** GitHub, Jupyter Notebook, Google Colab, TACC High Performance Computing, Qualtrics
- **Qualitative Analysis:** NVivo, QualCoder, LIWC
- **UI/UX:** Wireframing, Interactive Prototyping, Usability Testing, Figma, FigJam

RESEARCH METHODS

Experimental Design, Survey Research, Regression Modeling, Computational Text Analysis, Sentiment Analysis, Qualitative Coding and Analysis, Social Media Content Analysis

SELECTED QUANTITATIVE PROJECTS

Autonomous Vehicles & Organizational Legitimacy **Jan 2026 – May 2026**

UT Austin Team Project

- Built an end-to-end computational pipeline in Python for preprocessing, analyzing, and modeling large-scale Reddit data using VADER sentiment analysis and logistic regression
- Ran sentiment analysis and logistic regression on over 40,000 Reddit posts and comments, uncovering findings that inform how online discourse influences the public's perception of autonomous vehicles' legitimacy
- Programmed exploratory and inferential data visualizations to communicate model results and patterns in public trust toward autonomous vehicles

AI-Powered Health Communication Technologies **Aug 2024 – April 2025**

Master's Thesis

- Analyzed a large-scale Reddit dataset (1M+ comments) using computational text mining, Python, LIWC, and principal component analysis (PCA) to identify patterns in patient perceptions and technology adoption
- Designed a computational workflow that integrated text mining, quantitative content analysis, and multivariate statistical techniques to examine perceptions of AI-powered healthcare technologies

Gender Representation & Media Influence in Music Culture **Jan 2020 – Dec 2021**

Undergraduate Thesis

- Designed and executed an empirical survey study (N = 400) to evaluate audience reception, gender representation, and media sexualization in contemporary music culture
- Conducted descriptive statistical analysis and regression analyses in SPSS and Excel to identify how cultural norms, religious beliefs, and peer dynamics influence viewer attitudes and behaviors

RESEARCH EXPERIENCE

Graduate Research Assistant **Aug 2025 – Present**

Technology and Information Policy Institute

Dr. Keri Stephens is the Principal Investigator (PI)

- Spearheading an independently secured, grant-funded interview study on professional identity disruption and change management challenges during AI-driven layoffs to generate future-of-work insights for organizational leaders navigating workforce restructuring
- Partnering with Civil Engineering experts and the Texas Advanced Computing Center on an NSF RAPID grant project to conduct 30+ cross-sector interviews that delivered emergency coordination frameworks to 40+ emergency management professionals
- Analyzing a qualitative and structured dataset using a 26-code framework to offer findings for communities and organizations on making effective flash flood evacuation decisions
- Collaborating on a Texas General Land Office-funded grant to develop a flood community toolkit for floodplain managers to effectively communicate flooding risk to individuals and communities

Graduate Quantitative Research Assistant **Jan – May 2025**

HealthyBearsTXT. Baylor University Student Health & Wellness and the Department of Communication

Dr. Jessica Ford was the Principal Investigator (PI)

- Performed regression modeling and descriptive statistical analyses in R and SPSS on intervention data from 234 participants to evaluate behavioral outcomes and message effectiveness

- Collaborated on statistical interpretation and developed Excel visualizations to translate quantitative findings into actionable insights aligned with intervention objectives
- Maintained rigorous ethical standards in participant engagement, data collection, and dissemination of findings, in compliance with institutional and IRB protocols

Graduate Research Strategist **Oct 2024 – May 2025**

Keller Center for Research

Editor: Amanda Rodriguez

- Authored 10 practitioner-ready pieces, including 2 published INSIDER briefs, by partnering with the editor through full publication cycles that offered clients actionable professional development strategies
- Ghostwrote 8 research summaries, reframing academic findings as practitioner-facing business narratives that drove evidence-based decision-making for a real estate practitioner audience

Graduate Mixed Methods Research Assistant **May – Aug 2024**

Behavior Analysis Research (BeAR Lab)

Dr. Jessica Akers was the Principal Investigator (PI)

- Collaborated with the research team to deepen understanding of sibling dynamics in families with children on the autism spectrum, demonstrating strong teamwork and project management skills.
- Conducted extensive literature reviews to inform program development and showcased proficiency in research methodologies and critical analysis of academic sources in my daily tasks.
- Assisted with the design and facilitation of workshops for 100+ practitioners working with children with autism while emphasizing communication and effective organizational practices.
- Spearheaded participants' exit interviews and observational studies to assess the workshop's impact on sibling interactions.

BOOK CHAPTER & WHITE PAPERS

1. Stephens, K., & **Oralusi, T.** *Disaster Communication as Applied Communication: Contributions, Frameworks, and Future Directions* **(Under Review)**

2. Agada, P., & **Oralusi, T.** *Nollywood Abroad: Reception, Consumption, and Perception among the African Diaspora in the United States and Canada* **(1st Draft)**

3. **Oralusi, T. (2025, December 1).** INSIDER: We Should All Be Millionaires. *Keller Center for Research.* *https://kellercenter.hankamer.baylor.edu/news/story/2025/insider-we-should-all-be-millionaires*

4. **Oralusi, T. (2026, March 1).** INSIDER: Buy Back Your Time. *Keller Center for Research.* *https://kellercenter.hankamer.baylor.edu/news/story/2026/insider-buy-back-your-time*

RESEARCH PRESENTATIONS

1. **Oralusi, T.,** (2027, January). *AI Does Not Speak for Itself: Public Trust and the Social Construction of Intelligent Systems.* Paper to be presented at the AI and Society London Center for Interdisciplinary Research Conference, Online.

2. Lin, L., Sullivan, K., **Oralusi, T**., Ball, J. (2026, November*). Legitimacy from Clicks: The Role of Official Website Messaging and Online Discourse in Shaping Moral Legitimacy for Autonomous Rideshare Companies.* Paper to be presented at the National Communication Association, Organizational Communication Division, New Orleans, LA.

3. **Oralusi, T**. (2026, October). *Navigating AI in the Workplace: Employee Experiences in a Changing World of Work.* Poster to be presented at the Organizational Communication Mini Conference (OCMC), Denver, CO.

4. **Oralusi, T**., (2026, May). *Towards a More Collaborative Flood Risk Responsiveness.* Preliminary findings presented at the UT Austin + Schreiner University Flood Communication Symposium, Austin, TX.

5. **Oralusi, T**., (2026, March). *Establishing Organizational Legitimacy: How Autonomous Vehicle Organizations Establish Legitimacy through Official Messaging.* Presented at the 2026 University of Texas at Austin Department of Communication Graduate Recruitment Event, Austin, TX.

6. **Oralusi, T.** (2025, November). *Post-Pandemic Crisis Communication Strategies in Healthcare Organizations: Lessons from the COVID-19 Response.* Research presented at the National Communication Association, Organizational Communication Division, Denver, CO.

7. **Oralusi, T.** (2025, October). *AI in Healthcare: Integrating Technology and Preserving Patient Voice in Health Organizations.* Poster presented at the Organizational Communication Mini Conference (OCMC), University of Illinois, Urbana–Champaign.

8. **Oralusi, T.** (2025, April). *"Can you hear me?" The Rhetoric of the Strong Black Woman on Black Women's Maternal Mortality.* Poster presented at the Waco Family Medicine 17th Annual Health Research Forum, Waco, Texas.

9. **Oralusi, T.** (2025, March). *"Alexa, do I have Diabetes?" The integration of advanced communication technologies in healthcare organizations*. Research presented at the 2025 Three-Minute Thesis Competition, Baylor University, Waco, Texas.

CURRENT RESEARCH IN PROGRESS

1. **Oralusi, T.,** Ford, J., Marsh, J. *Perceived Message Effectiveness in a Text Messaging (SMS) Initiative for College Students' Health and Wellness. (Under Review)***.**

2. S**tephens**, K.K., Doucet, C., Tch, K.P., Harris, A.G., **Oralusi, T.,** Aguilar, E. *Lists, Stories, and Sensemaking: Narrative Preference and Protective Action in Organizational Crisis Communication***.** *(Manuscript Preparation)*

3. Stephens, K., Tasuji, T., Aguilar, E., **Oralusi, T.,** *A Systematic Literature Review of How Small Businesses Can Build Resilience Capacity: Challenges and Future Research Agenda. (Manuscript Preparation)*

4. **Oralusi, T.,** & Stephens, K., *"This is a Community Problem" Collaborative Organizing for Effective Flash Flood Preparedness (Manuscript Preparation)*

5. **Oralusi, T.,** Bratcher, A., Rhidenour, K. Continuous Monitoring, Continuous Communication: How Diabetic Patients Perceived AI-Powered Communication Technologies in Their Care Journey *(Manuscript Preparation)*

6. **Oralusi, T.,** *"Who is in the Driver's Seat? Trust and Diffusion of Innovation Characteristics in Autonomous Vehicles Adoption on Reddit."* Computational analysis of autonomous vehicles subreddit discourse using VADER sentiment analysis, logistic regression, and Diffusion of Innovation Theory *(Data Analysis Phase)*

7. Stephens, K., McGlone, M., Su, R., Moore, P., **Oralusi, T.,** Liu, X. *M3FR: Designing a flood communication toolkit for Texas Floodplain Managers (Data Analysis Phase)*

8. **Oralusi, T.,** & Stephens, K., *Navigating AI in the Workplace: Employee Experiences in a Changing World of Work.* ***(****Data Collection Phase)*

TRAININGS AND WORKSHOPS

1. Data Centers Dissected: Digital Benefits vs. Physical Requirements | The Austin Forum on Technology & Society
2. Supercomputing, Cloud Computing, and AI Factories | The Austin Forum on Technology & Society
3. TACC Summer Institute: Information Integrated Decision Support | Texas Advanced Computing Center
4. Texas Flood Organizing Group and Flood Inundation Mapping: Third Annual In-Person Workshop

SELECTED CERTIFICATIONS

1. Aspire Leaders Program | Aspire Institute — Apr 2026
2. Introduction to Prompt Engineering | SimpliLearn — Dec 2025
3. Digital Skills: User Experience | Accenture — Nov 2025
4. Excel Essentials for Data Analysis | IBM — Sept 2025
5. Excel Fundamentals | DataCamp — Aug 2025
6. Google Data Analytics Professional Certificate | Google — July 2025
7. Pandemic-Preparedness Communication | TEPHI — Nov 2024
8. Certified Data Scholar | Baylor University — June 2024
9. Certified Scrum Master (CSM) | Scrum Alliance — Apr 2024
10. Agile Project Management Professional Certificate | Google — Feb 2024
11. Social and Behavioral Research | CITI — Sept 2023
12. McKinsey Forward | McKinsey & Company — May 2023

GRANTS AND FELLOWSHIPS

1. Navigating AI in the Workplace: Employee Experiences in a Changing World of Work. Fellowship from the Technology and Information Policy Institute. $1000. *Funded*

2. National Academies of Sciences, Engineering, and Medicine. Flooding Futures: Faith and Community-Led Resilience Education in the Lower Rio Grande Valley Colonias. Stephens is CoPI. Value: $450,000 *Not funded*

3. **Recipient,** Moody College of Communication, UT Austin Travel Grant. Value: $800

4. **Recipient,** Moody College of Communication Provost Fellowship, UT Austin. Value: $5,000 per academic year

5. **Recipient,** Graduate School Decentralized Fellowship, UT Austin. Value: $4,000 per academic year

6. **Recipient,** Fully Funded Scholarship, Baylor University, MA Class of 2025. Value: $150,000

7. **Recipient**, National Communication Association Black Caucus Travel Grant. Value: $200

8. **Top 5 Graduating Student**, University of Lagos, Undergraduate Class of 2021

TEACHING APPOINTMENTS

Assistant Instructor – Department of Communication | UT Austin **Fall 2026**

CMS 318L: Strategic and Risk Communication (Fall 2026)

Introduction to the closely related areas of strategic communication, being purposeful and goal-driven in messaging across various contexts, and risk communication, exchanging/assessing risk information to manage decisions across various contexts.

Graduate Teaching Assistant – Department of Communication | UT Austin **Fall 2025 – Spring 2026**

- CMS 318L: Strategic and Risk Communication with Dr. Natalie Andreas (Fall 2025)
- CMS 339K: Working Virtually with Dr. Natalie Andreas (Spring 2026)

INDUSTRY EXPERIENCE

Social Media Manager **Jan 2020 - June 2023**

Raffia Lagos

- Managed and handled the social media account, especially the Instagram account, strategically using tools to create and maintain the company's brand
- Planned, designed, and managed content, creating graphic and video content to be posted on the brand's social media
- Devised KPIs for the company and managed analytics for social media campaigns, including targets for likes, shares, and customer retention/loyalty

Social Media Marketing Specialist **Oct 2021 – Jan 2022**

Victoria Acres Limited

- Analyzed content performance metrics and key performance indicators (KPIs) to evaluate campaign effectiveness, identify audience engagement trends, and inform data-driven marketing decisions
- Collaborated across sales, marketing, and product development teams to create and optimize evidence-based content aligned with customer engagement objectives

Content Development Manager **July 2020 – Nov 2020**

Lagos Travel Magazine

- Authored 50+ travel articles highlighting the culture, tourism, and heritage of Lagos, Nigeria, for local and international audiences
- Analyzed website and social media analytics to identify audience engagement trends, establish performance benchmarks, and generate impact reports to guide editorial decision-making

Radio Production Intern **Nov 2019 – Jan 2020**

Consolidated Media Associates Group

- Researched, wrote, and coordinated editorial content for Urban 96.5 FM's live breakfast show, including content planning, interview preparation, and production support

PROFESSIONAL SERVICE

Ad Hoc Reviewer
(2024 – Present)

Conference Submission Reviewer (35+ Manuscripts)
National Communication Association (NCA)

- Applied Communication Division
- Organizational Communication Division
- Health Communication Division
- Student Section
- African American Communication and Culture Division

Award Reviewer

Early Career Award Reviewer
National Communication Association (NCA)

- African American Communication and Culture Division

Chair
(2024 – 2025)

Professional Development Chair for Communication Studies Graduate Students
University of Texas at Austin

- Organized and facilitated conference presentation prep sessions.
- Organized student professional development resources.

1st Year Ph.D. Representative

Ph.D. Representative for 1st Year Communication Studies Graduate Students

University of Texas at Austin

- Liaison between 9 first-year doctoral students and program leadership to support academic and social integration.

PROFESSIONAL MEMBERSHIPS

- Southern States Communication Association (SSCA) — Aug 2026 - Present
- Western States Communication Association (WSCA) — July 2026 – Present
- World Economic Forum: Global Shapers – Austin Hub — Apr 2026 – Present
